What "training" means for you?

For the trainee means to acquire experience from others. For the trainer to be able to transfer his/her experience to others. To be able to transfer your experience is a great gift. In my long professional life, I have been lucky to have the opportunity to train different people both when I was working at Arthur Andersen and later in different occasions - one of the most interesting and at same time difficult training experience was at the beginning of nineties in ex-soviet bloc countries training ex-communist officer to audit techniques.

What advice would you give someone who is starting his career?

To understand which is own life dream. And fulfill it with any means.
